* With the unprecedented number of on-the-day entries (159) and the pressure this placed on registration some walk numbers were duplicated (and in a couple of instances triplicated). Walk numbers were not recorded for two entrants. We also have several sets of times to which we cannot allocate names. The net result is that there are likely to be errors with regard to those duplicated walk numbers as listed below. This only affects on-the-day-entries. If your name appears in the list below (or you have one of the duplicated numbers in the results above which you think is in error) and you can remember your start and/or finish time and the time you were awarded could you please email the information to tony.cartwright24@NTLworld.com and I will update the results accordingly. We would like to 'correct' as many errors as is possible and give you all the times you achieved. Apologies for this happening.
